

REPORT ON THE ACTIVITIES OF THE FORUM ENERGII IN 2021.

1. INTRODUCTION

The Forum Energii is an interdisciplinary think tank whose team consists of experts working in the field of energy, with experience in business, public administration and science. Our mission is to initiate dialogue, propose solutions based on knowledge, and inspire action for fair and effective energy transformation leading to climate neutrality. We accomplish it through analysis, opinions and dialogue on decarbonization of key areas of the economy.

2. FORUM DETAILS

- Name

Forum Energii

- Legal form and nature of activity

Non-profit, non-business foundation

- Registered office and mailing address

Wspólna 35/10, 00-519 Warsaw; info@forum-energii.eu

- Number and date of entry in the National Court Register

0000625996, 30.06.2016 r.

- Statistical Identification Number REGON

364867487

- Data concerning members of the Management Board

Joanna Maćkowiak-Pandera - President of the Board

Lidia Kołucka-Żuk - Vice-President of the Management Board

- Supervisory Board

Paweł Smoleń (Chairman), Piotr Otawski, PhD, Antoni Bielewicz

3. GOALS

The **Forum Energii** was established to support public debate on the Polish energy sector in the context of sustainable development. In particular, the Forum works to support activities aimed at the development, modernization, improvement of energy system security, increasing innovation in the energy sector, with particular emphasis on cost-effective reduction of the impact of energy on the environment. The Forum works for the general public and the public good. It supports the public debate on energy and sustainable development, provides analyses, concepts, conducts trainings and workshops, organizes conferences and supports international dialogue.

4. PRINCIPLES, FORMS AND SCOPE OF STATUTORY ACTIVITIES

The objectives of the **Forum Energii** are pursued in particular through:

- Conducting research activities, including developing research programs;
- Publication of studies and analyses as well as preparation of expert reports and opinions;
- Information and educational activities;
- Organization of expert meetings and conferences;
- Working with the media;
- Fostering public debate.

The Forum Energii also pursues its statutory objectives through membership in associations of Polish and foreign organizations with statutory objectives convergent with those of the Forum. In order to implement its statutory projects, the Forum may cooperate with other institutions, organizations and persons and support their activities. In order to achieve its objectives, the Forum Energii may establish expert panels, groups and advisory committees.

5. ACTION IN 2021.

5.1. PROGRAMS:

Forum Energii activities in 2021 focused on four programs:

5.1.1. Electrical Power Engineering

As part of this program, the Forum Energii addressed:

- monitoring Poland's energy transition,
- reform and the future of the energy market,
- The future of lignite in the coal triangle (Poland-Czech Republic-Germany),
- analyzing the impact of the coronavirus pandemic on the energy sector, and examining the potential for using the crisis as a driver of change,
- investments in the sector, with a particular focus on the impact of the pandemic on energy
- international commitments on climate law and their impact on national policy,
- the impact of electromobility on the electricity system, etc.

5.1.2. Heating

As part of this program, the Forum Energii addressed:

- communication of the strategy for the Polish heat industry,
- Good practices of dealing with smog by local governments as part of the project "LeadAIR - we help cities beat smog",
- the topic of connecting the heating and transport sectors to the electricity system
- monitoring of polish district heating
- current trends, data
- heat engineering as Poland's priority for the new financial perspective and element of European Green Deal, etc.

5.1.3. RES

As part of this program, the Forum Energii addressed:

- RES development potential with particular emphasis on the ambition of RES to fill the coal gap,
- examining the status of the national RES targets for 2020 and the consequences of failing to meet them,
- The role of RES in decarbonizing district heating,
- data and development trends, etc.

5.1.4. Transition Financing

Under this program, which began in FY2021, the Forum Energii addressed:

- analysis of the flow of money from the EU funds and from the EU ETS, which can finance the energy transformation of the Polish economy;
- benefits for the Polish economy resulting from the energy transformation;
- The impact of changes in climate-environment policy on households and options for supporting the energy poor.

5.1.5. Other cross-curricular activities

Cross-program activities include:

- The second edition of the project "LeadAIR - Helping cities beat smog", which through a process of individual consulting, workshops and knowledge exchange supports local governments in making progressive changes to improve air quality. The project is co-created with the organization Purpose.
- An international Int-E-Grid project conducted jointly by the Forum Energii, the Foundation for the Promotion of Electric Vehicles and Agora Verkehrswende, funded by the European Initiative for Kimat (EUKI). The aim of the project was to develop recommendations for central authorities, local governments and business after both, which will improve the development of electromobility.

5.2. PUBLISHED ANALYSES

1. Electrification of District Heating in Poland | The Road to Clean Heat, 26.01.2021
2. Energy Transformation in Poland | 2021 Edition, 17.03.2021
3. Dynamic and fair | The future shape of network tariffs in Poland, 06.05.2021
4. Green gases | Biomethane and hydrogen in Poland, 25.06.2021
5. How much do CO2 emissions from buildings and transport weigh? EU plans and the Polish raison d'etre, 02.07.2021
6. Electromobility Visegrad | Status, perspectives and challenges, 22.07.2021
7. LeadAIR Guide for Local Governments | How to finance measures to improve air quality and meet climate and energy targets? , 28.07.2021
8. Power market to change | Experience of Great Britain and conclusions for Poland, 13.09.2021
9. The district heating company of the future | A new business model, 16.09.2021
10. Microinstallations on a curve | How to secure the future of distributed energy in Poland? , 21.10.2021
11. Ready for 55%. A guide to financing the energy transition from 2021. , 09.11.2021
12. Distribution Networks. Planning and development, 30.11.2021

5.3. OPINION ARTICLES

1. End of coal in 2030 households, 19.01.2021
2. Green hydrogen strategy still too grey, 15.02.2021
3. Stock bond - no time for violent moves, 24.02.2021
4. National Recovery Plan - 3 elements that need to be improved, 31.03.2021
5. Solid fuel standards must be tightened, 27.05.2021
6. What is EU-ETS for and what reform is coming? , 02.06.2021
7. A move away from lignite is possible even in 2032 , 11.06.2021
8. We need 2 GW of new photovoltaic capacity annually - that's why it's worth supporting prosumers, 23.06.2021
9. NABE - hibernatus of the Polish power industry, 28.06.2021
10. Ready for 55% - what will be included in the package? , 13.07.2021
11. After 2025, coal will leave the Polish power system in waves, 27.07.2021
12. The specter of the ETS gap, 27.08.2021
13. Tariff regulation for the heating industry - a suit tailored not to this measure, 02.09.2021
14. Energy poverty: an old problem, systemic solutions needed, 07.12.2021
15. 10 steps to get out of the energy crisis, 08.12.2021
16. E-mobility - a chance for further development of economic cooperation between Poland and Germany, 20.12.2021

5.4. MAJOR MEETINGS ORGANIZED BY THE FORUM ENERGII

1. LeadAIR - 1st Training Convention for participating cities, 12-15.01.2021, online
2. Webinar: Smog - if and how it affects our lives, 17.02.2021, online
3. KPO - opportunity for development of charging infrastructure for electric vehicles - workshop, 10.03.2021
4. Conference | Energy, climate, budget. Forum for the new financial perspective of the EU, 11.03.2021
5. Webinar: Air protection in urban planning, 25.03.2021, online
6. Webinar: Energy transition in Poland, 08.04.2021, online
7. Webinar: Why should we consider global megatrends when looking for local solutions? , 27.04.2021, online
8. Conference: The role of electrification of district heating in achieving climate neutrality of the sector, 13.5.2021
9. Panel of experts | How to give impulse to new investments - experience of Poland and Great Britain with the power market, 26.5.2021
10. Expert panel | The district heating company of the future. New business model, 7.6.2021
11. Expert panel | Fit for 55: how the EU intends to meet increased reduction targets, 30.6.2021
12. Webinar: The district heating company of the future | A new business model, 13.10.2021
13. Int-E-Grid | Second meeting of the Polish-German Platform for Electromobility, 27.10.2021
14. Online meeting: New EU initiatives for cities, 2.12.2021
15. Conference: Forum for Transformation | Energy Emergency, 8.12.2021

5.5 OTHER EVENTS IN COOPERATION WITH FORUM ENERGII (patronage/partnership)

1. 14th European Economic Congress, 2-202.09.2021
2. X edition of the Energy Academy, 16.10-13.12.2021
3. XXXIV EuroPOWER Energy Conference, 17-18.11.2021

6. FUNDING SOURCES

- Grants :
 - o 7 grants from the European Climate Foundation
 - o 2 grants from EUKI
 - o 1 grant from Smart Energy for Europe Platform
 - o 1 grant from PURPOSE
 - o 1 grant from Clean Air Fund
- Decreases: 0
- Enrollment: 0
- Donations: 0
- Public collections: 0
- Public sources (including state and municipal budget): 0
- Interest rates on bank accounts: 0
- Paid services for statutory purposes: 0
- Economic activity: 0
